PERSONAL INFORMATION

Address: B6 L37 Sitio Pulo Anabu 2C Imus city, Cavite
Date of Birth: June 20, 2004

EXPERIENCE

Projects

TRACKED: A Web-Based Student Progress Tracking System | Lead UI/UX & Frontend Developer   January 2026
- Capstone project for Cavite State University Imus - Campus.
- Developed the front end using ReactJS, Tailwind CSS, and JavaScript to turn designs into a working system.
- Worked closely with team members and clients to align frontend features with backend functionality.

3Minds Portfolio Project | Lead UI/UX & Frontend developer   April 2025
- College Portfolio Website Project.
- Strengthened my ability to create a fully responsive website using React JS and Tailwind CSS.
- Developed reusable components to keep the design consistent across pages.

Ctrl + Alt + Delight POS System | Lead UI/UX & Frontend Developer   January 2025
- Learned the full workflow of a POS system including ordering, checkout, and transaction flow.
- Developed interface layouts using HTML and CSS for ordering and checkout screens.
- Created visual assets and product display elements for menu and ordering screens.
